

FEET ON ATLANTA

Goal: To estimate how much of the City of Atlanta's sidewalks need to be repaired or replaced.

PLEASE PRINT

Your Name:		Phone or Email:	
Street to be Surveyed: (one street per sheet)		<input type="checkbox"/> Sidewalk on BOTH sides of street. <input type="checkbox"/> Sidewalk on ONE side only.	
From (intersecting street):		To (intersecting street):	
<input type="checkbox"/> Sidewalks are made of concrete. <input type="checkbox"/> Sidewalks are made of pavers or bricks. <input type="checkbox"/> Sidewalks are a mix of concrete and pavers or bricks.		<input type="checkbox"/> Street has mostly residential properties. <input type="checkbox"/> Street has mostly commercial properties.	

WHAT TO DO:

You will survey the sidewalks property by property. Survey both sides of the street if there are sidewalks on both sides. For each property (house or business), place one tally mark in a column below to show if any of the sidewalk in front of the property needs to be repaired or replaced. Add tally marks like this: | || ||| |||| ~~||||~~ |.

The sidewalk in front of the property has: <ul style="list-style-type: none"> • A smooth, flat surface with no gaps. • Some cracks are okay. • No tripping hazards of 1/2 inch or more. • Small gaps of less than 1 inch. 	The sidewalk in front of the property has: <ul style="list-style-type: none"> • A gap or crack 1 inch wide or more. • A tripping hazard of 1/2 inch or more. • Tree roots buckling the sidewalk. • Broken, loose or uneven pavers or bricks.
 Sidewalk is Good	 Needs Repair or Replacement
